ABOUT ME

Motivated 3rd-year Information Technology student at Oulu University of Applied Sciences with hands-on experience in web and mobile development. Skilled in React, Next.js, React Native and modern backend APIs through academic projects and international team collaboration. Currently looking for an internship or junior developer position to grow as a full stack developer.

TECHNICAL SKILLS

- Languages & Frameworks: JavaScript, TypeScript, Node.js, Express, React, Next.js, React Native, Expo, HTML5, CSS3, Tailwind CSS, Python, Java, Kotlin, C#
- Tools & Platforms: Git, GitHub, VS Code, Postman, Figma, Xcode Simulator, Android Emulator
- Databases & Cloud: PostgreSQL, MySQL, Supabase, Azure, Render, Vercel, Docker, Firebase

PROJECTS:

| | |
|---|---------|
| <u>UniChat</u> - Cross-University Mobile Chat App | 02/2025 |
| <ul style="list-style-type: none">Implemented email/password authentication with persistent login state.Built user profiles with selectable avatars shown consistently across the app.Helped design group announcements for sharing important updates and deadlines.Designed and refined the mobile UX. | |
| <u>MovieVerse</u> - Full-Stack Movie Platform | 11/2024 |
| <ul style="list-style-type: none">Built core React views (Search, Detail, Reviews, Watchlist) and route guards.Implemented homepage, user profile, group management and notification features across full-stack features.Designed the REST API and Supabase schema (tables, indexes, row-level security).Set up application deployment and runtime environments for both frontend and backend. | |
| <u>PetLove</u> - Pet Adoption Platform | 03/2024 |
| <ul style="list-style-type: none">Implemented pet registration module (frontend form + backend API).Built the pet registration form UI, including fields such as pet name, type, age, description, and location.Integrated the pet registration flow with JWT-based authentication.Collaborated with teammates to test the end-to-end flow from pet registration to adoption requests. | |
